

Ghost story found on the road

I remember that day. When I thought Ghosts do not exist. But I didn't know. When will I face the ghost? I can be very scared. Not all of us believe in ghosts. Because until someone sees the ghost. He doesn't believe it. I used to think the same. Because I did not see the ghost. It's about that day. When I was coming to my home by car. On the way I meet a man.

He was in big trouble. He needed help. He was driving the car alone at that time. I had stopped my car with that man. Because it was night time. He was showing me his hand. So I stopped my car. asked that man. You need help. the man says. My car has also broken down. So I could not reach home. You can help me. When he told his address. I was feeling This address gets in the way. So he gets into the car.

After that we both went on talking. Because no one was there in the night time. Nothing was visible on that road. We were both talking. He was sitting in the front seat. I feel better now. Because I was alone. Now someone was with me to talk to. After some time I looked out the window. What was that man doing outside? While he was sitting in my car. I looked at my seat. He was not. He had gone on the road. When did he get out of the car? I didn't understand. I had stopped the car.

When I looked back He was nowhere to be seen. Who was that man? He was some ghost. who was sitting with me. He came for some time. Now I was feeling very scared. Because a ghost is here. Now I must leave here. Because if that ghost follows me. I am not going to understand. What will happen. I proceed with my car. After some time that man appears ahead of me. He was standing on the road again. Now the fear seemed too much. This time I did not stop the car.

Because I have come to know. He's a ghost. who is following me. Now I did not stop the car. Because I understood. There are ghosts. If someone doesn't believe in this. Ghosts do not exist. which happened to me. If he was with anyone. He can be sure. There are ghosts in this world. After that day I was convinced. But this was also understood. I should not travel in the night. After that day he did not travel in night.
